NO Relaxation Reading Club, Adult Crafts & Activities, or Storytime grab bags in May.

StarkFresh Seed Library available at the Library March 1 - May 29, while supplies last.

How it works:

These seeds are free for you to take and grow! Please use hand sanitizer before looking through the seed packets.

If you're not ready to come inside, request a seed collection. Fill in the form, on our website and we will prepare a seed collection for pickup via our Holds shelf or contact-free curbside service.

Share photos of you planting, nurturing and harvesting your plants, and share them with us on Facebook @lplibrary or by emailing them to public.relations@louisvillelibrary.org.

**Summer Reading Online (SRO) begins June 7.
Register on our website beginning June 7.**

Watch our Tutorial video on June 1st, June 2nd OR June 5th to see how to register.
